To Whom It May Concern:

Matt Schroeder was a guest speaker for my sixth grade social studies classes on May 21st.
talked to the students about making good decisions and staying positive during even the worst of
circumstances. Matt's presentation is unique and gets the students involved and actively thinking
is motivated to make a difference with the students and really cares about shaping the student's li
for the better. I recommend Matt as a positive motivational speaker that will deliver a message th
students will remember.

Sincerely,

Heath Wisher
